

Fig. A1 Partial Dependence and Individual Conditional
Expectation of a_2 value in the best model

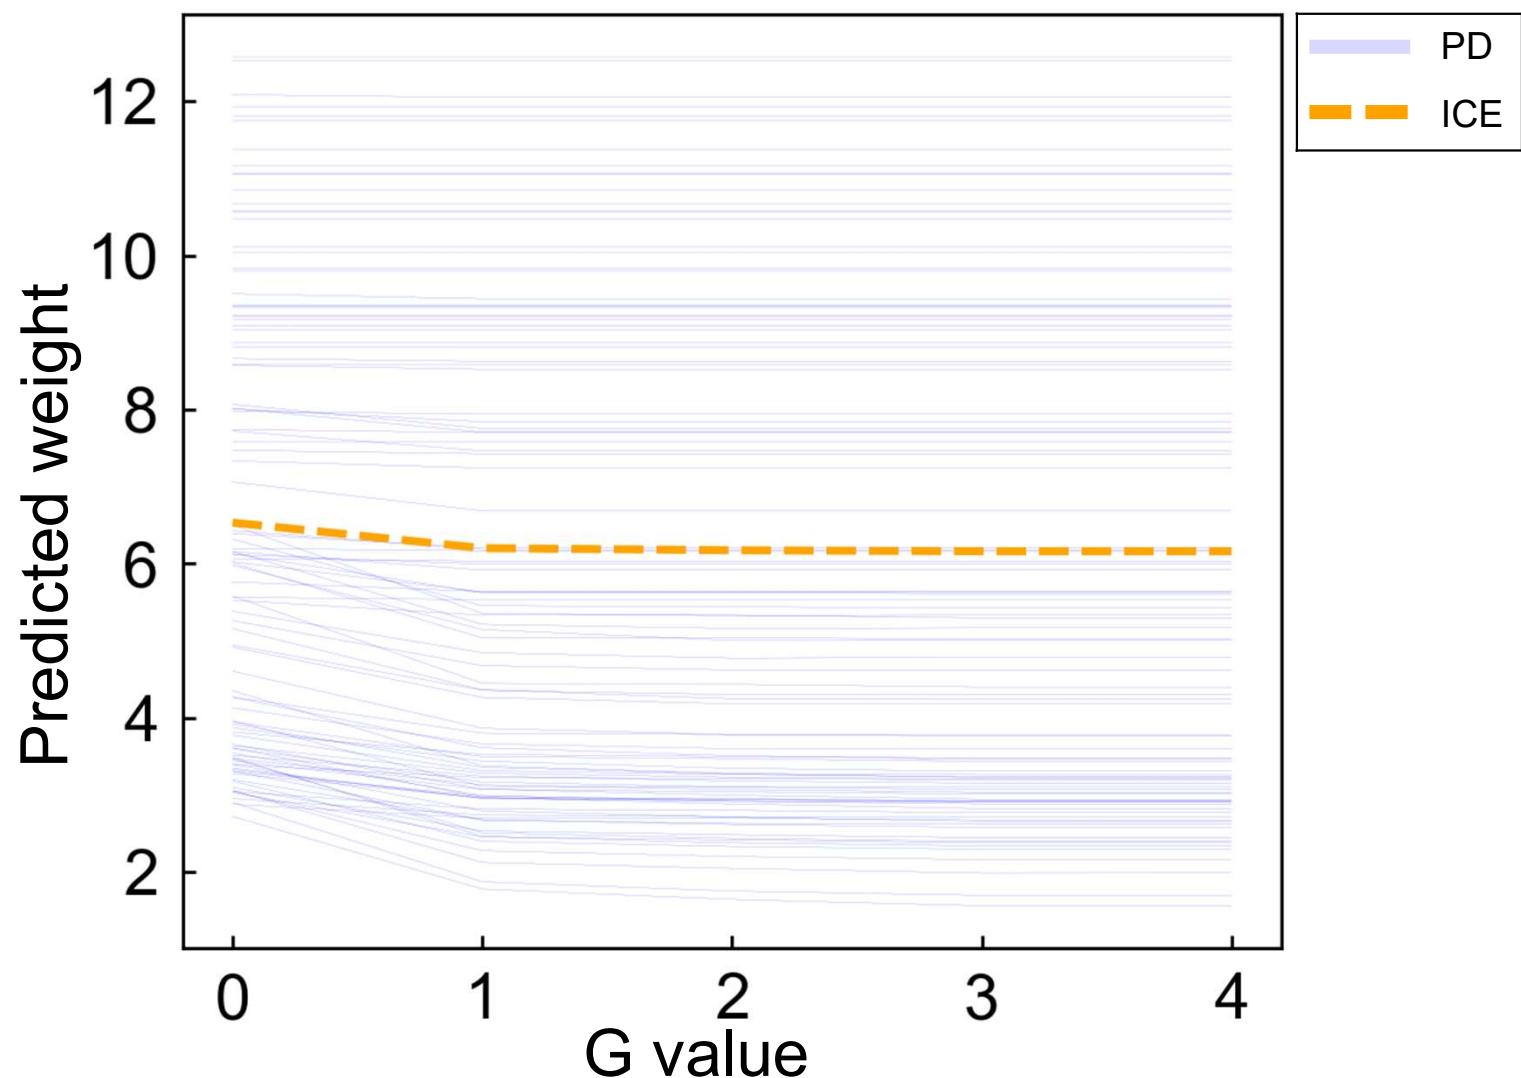

Fig. A2 Partial Dependence and Individual Conditional
Expectation of G_min value in the best model

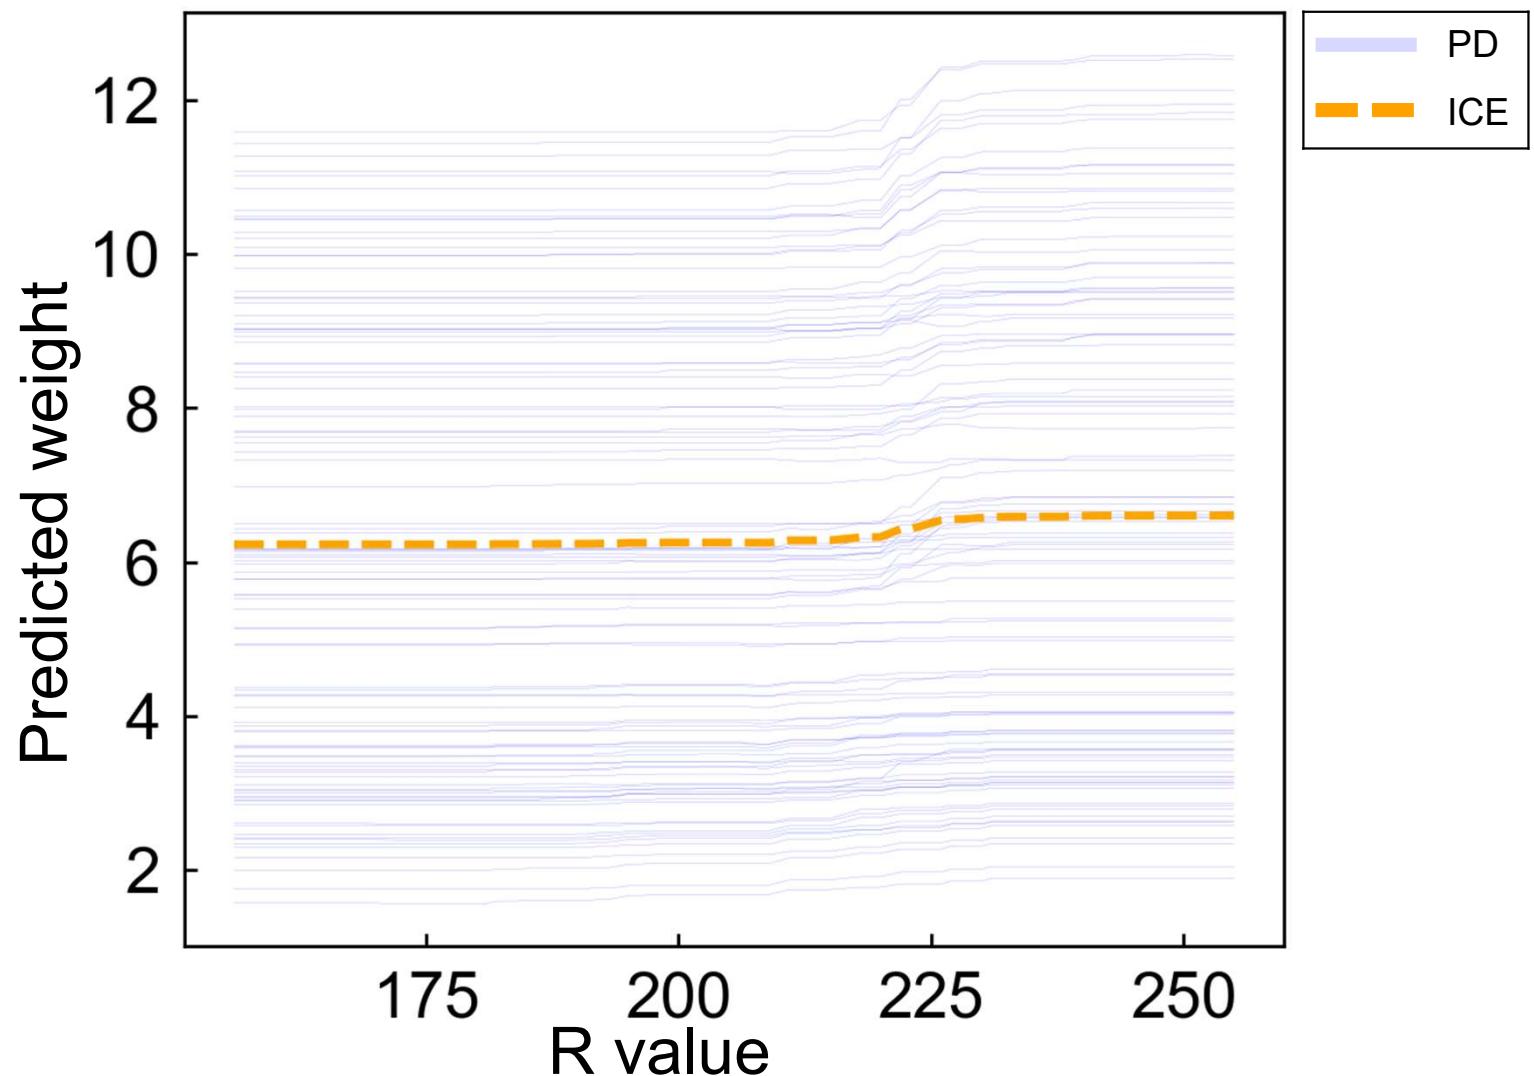

Fig. A3 Partial Dependence and Individual Conditional
Expectation of R_{\max} value in the best model

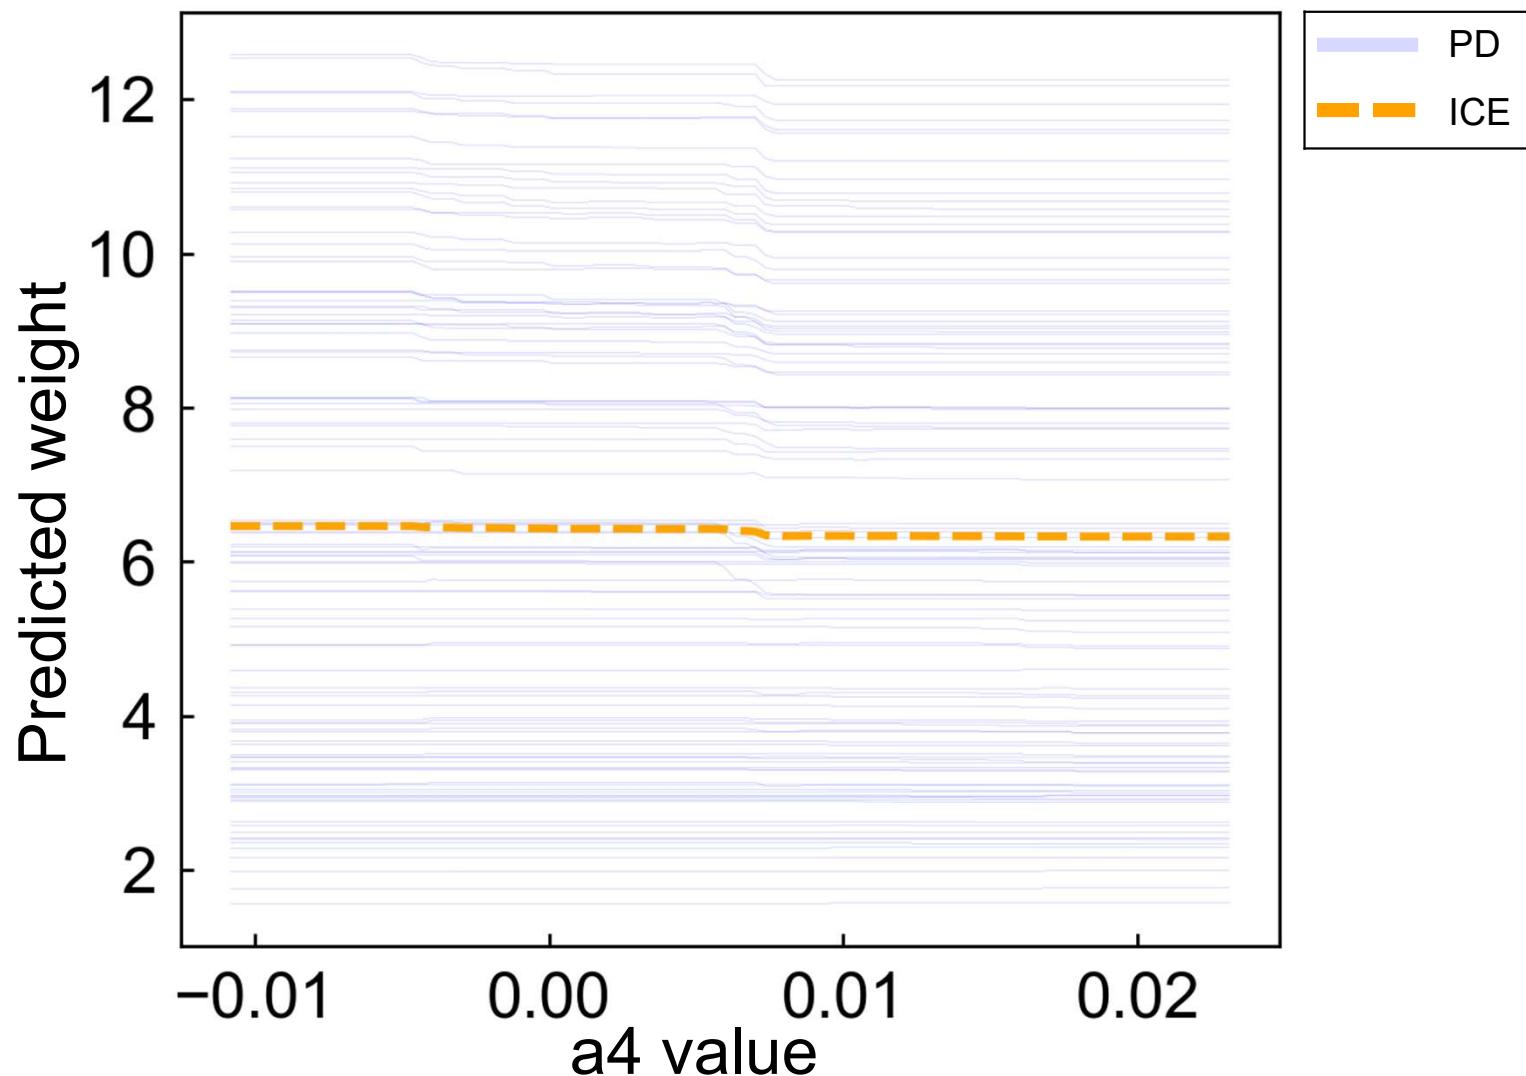

Fig. A4 Partial Dependence and Individual Conditional
Expectation of $a4$ value in the best model

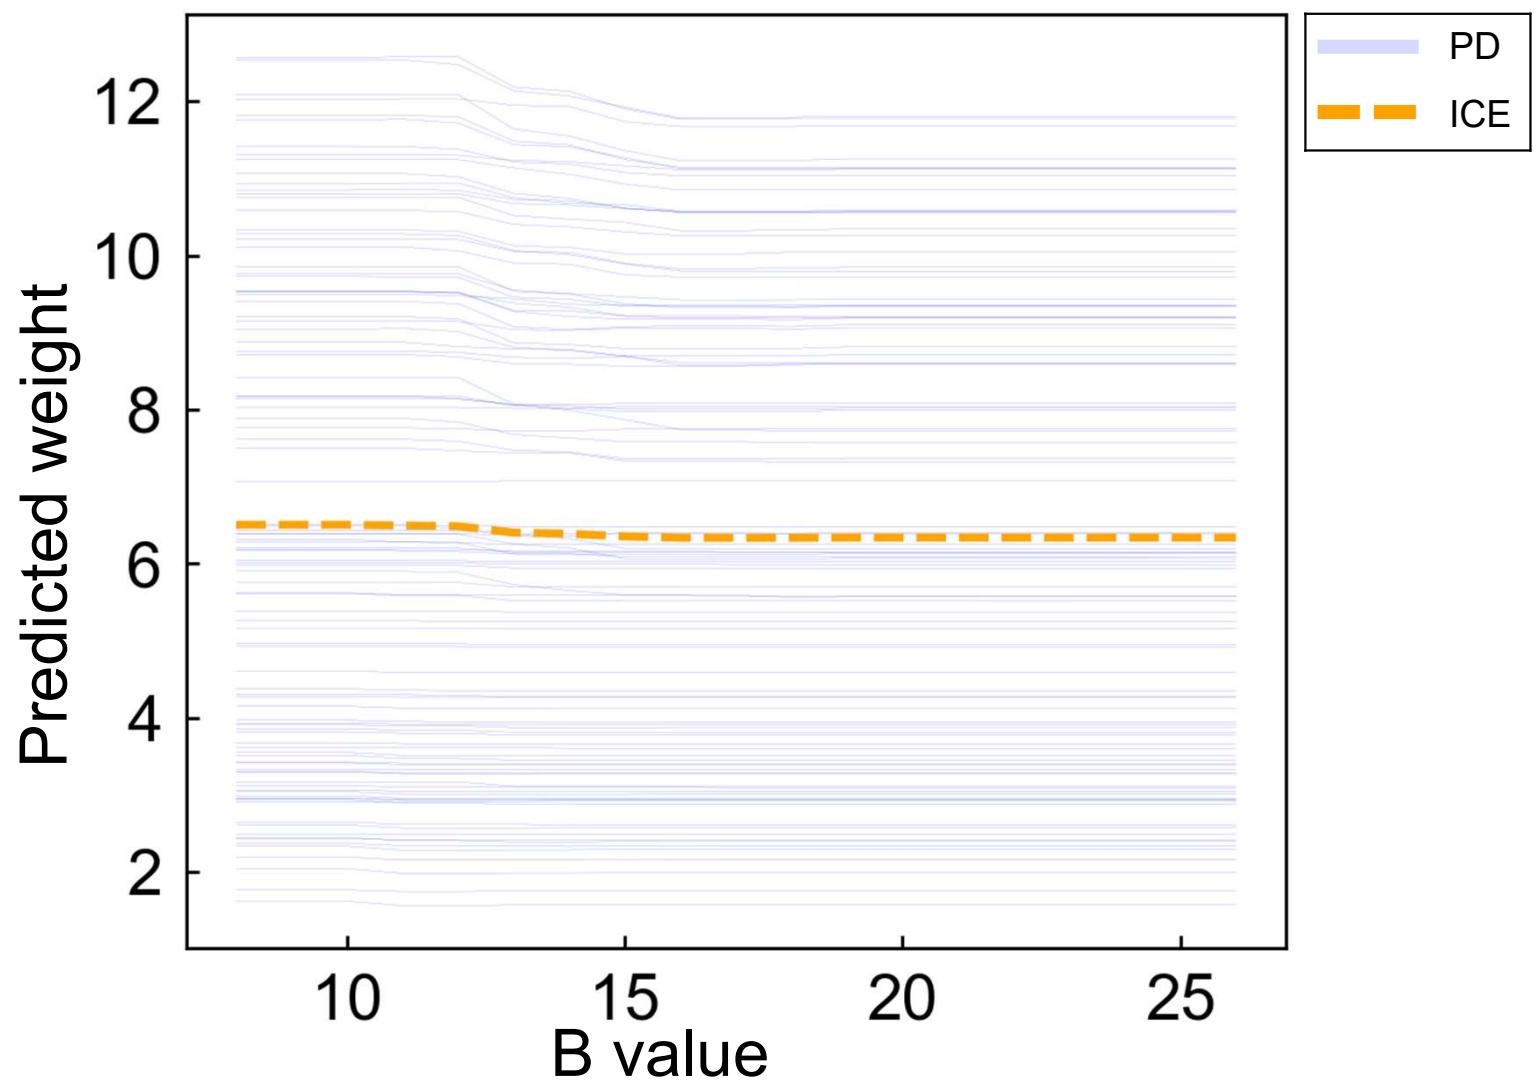

Fig. A5 Partial Dependence and Individual Conditional
Expectation of B_median value in the best model

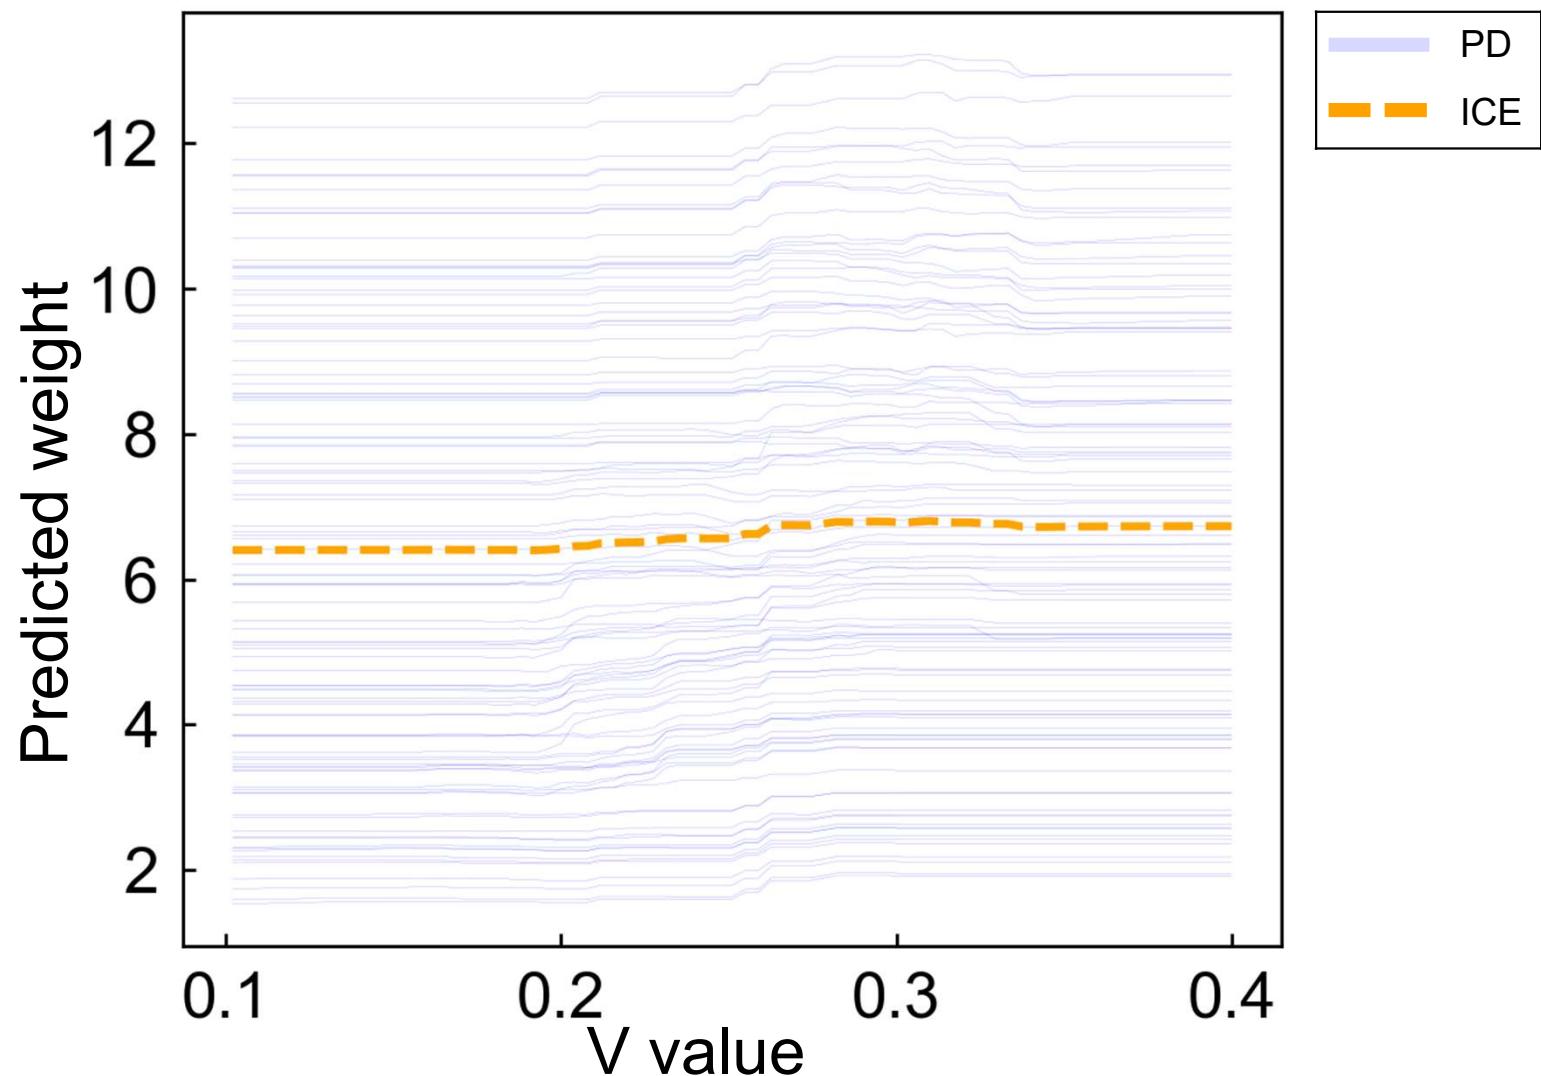

Fig. A6 Partial Dependence and Individual Conditional
Expectation of HSV_V_median value in the best model

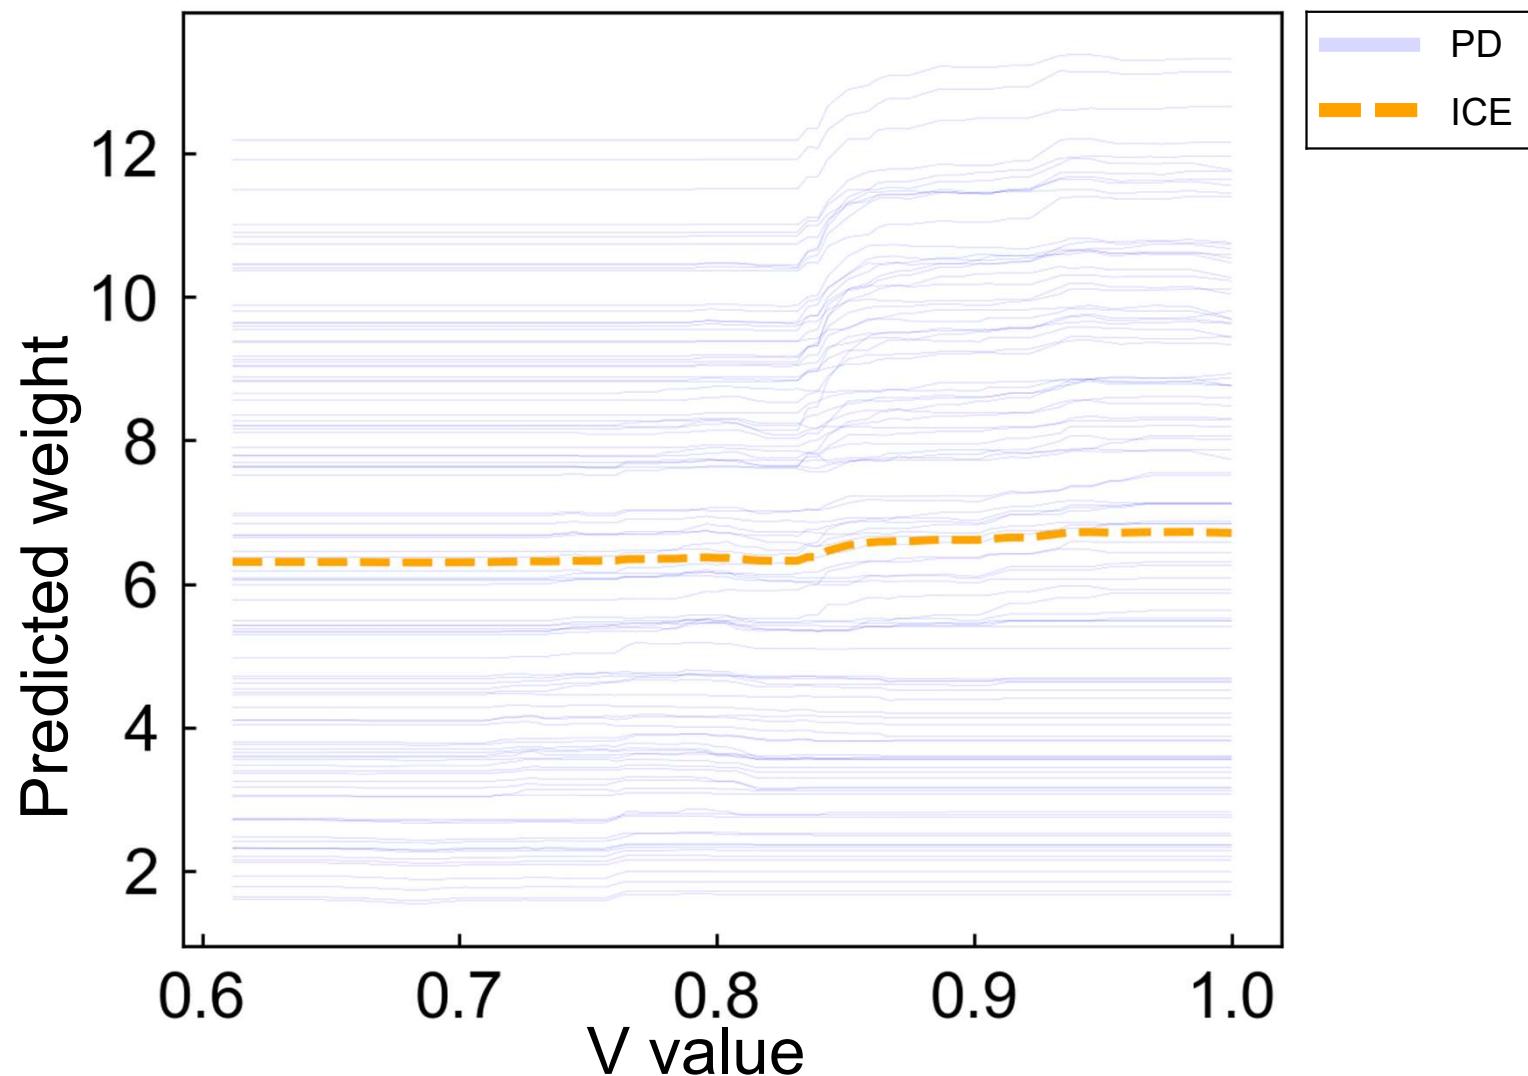

Fig. A7 Partial Dependence and Individual Conditional
Expectation of HSV_V_max value in the best model

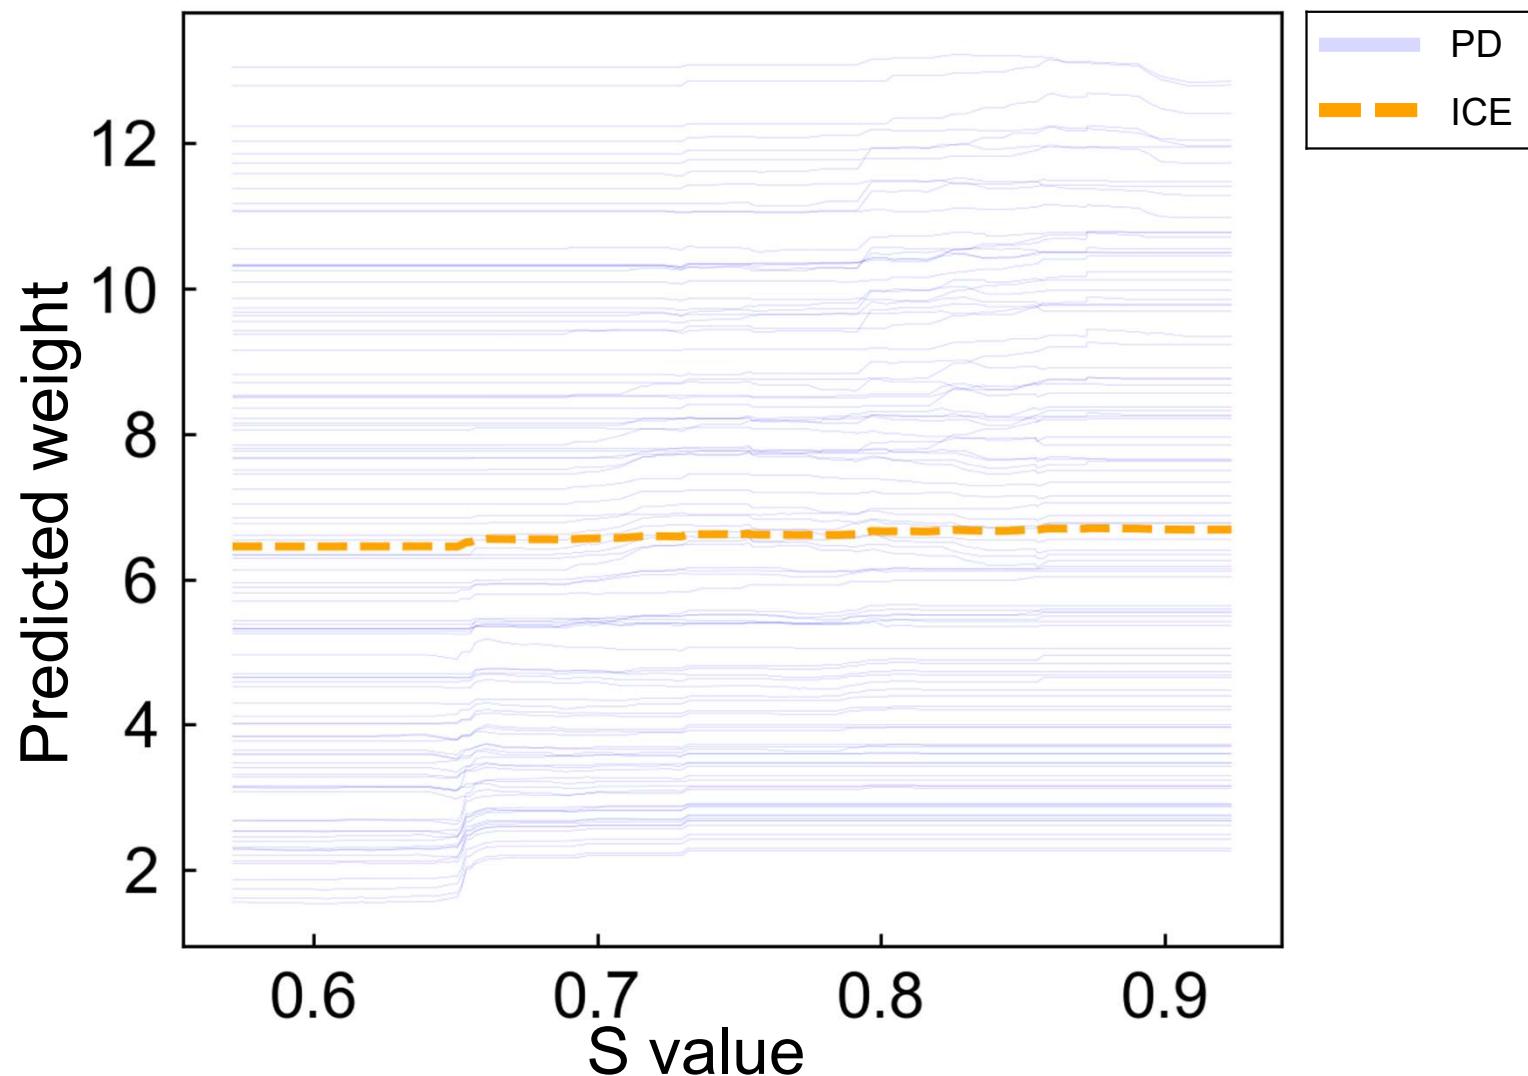

Fig. A8 Partial Dependence and Individual Conditional Expectation of HSV_S_median value in the best model

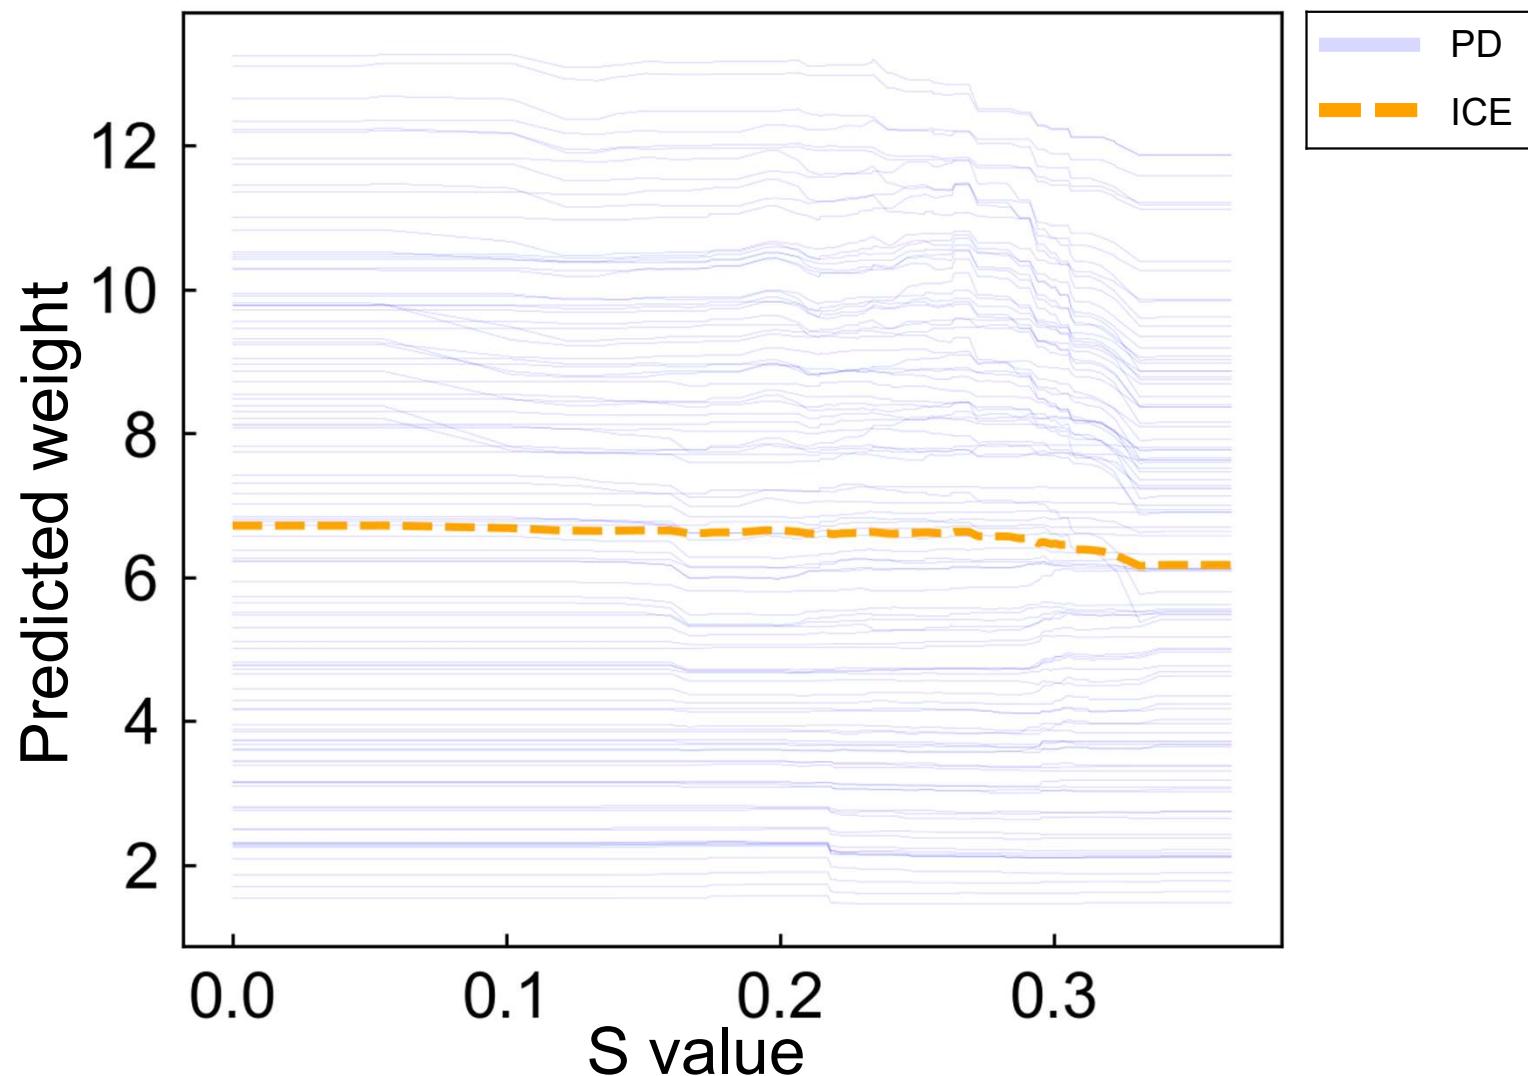

Fig. A9 Partial Dependence and Individual Conditional
Expectation of HSV_S_min value in the best model

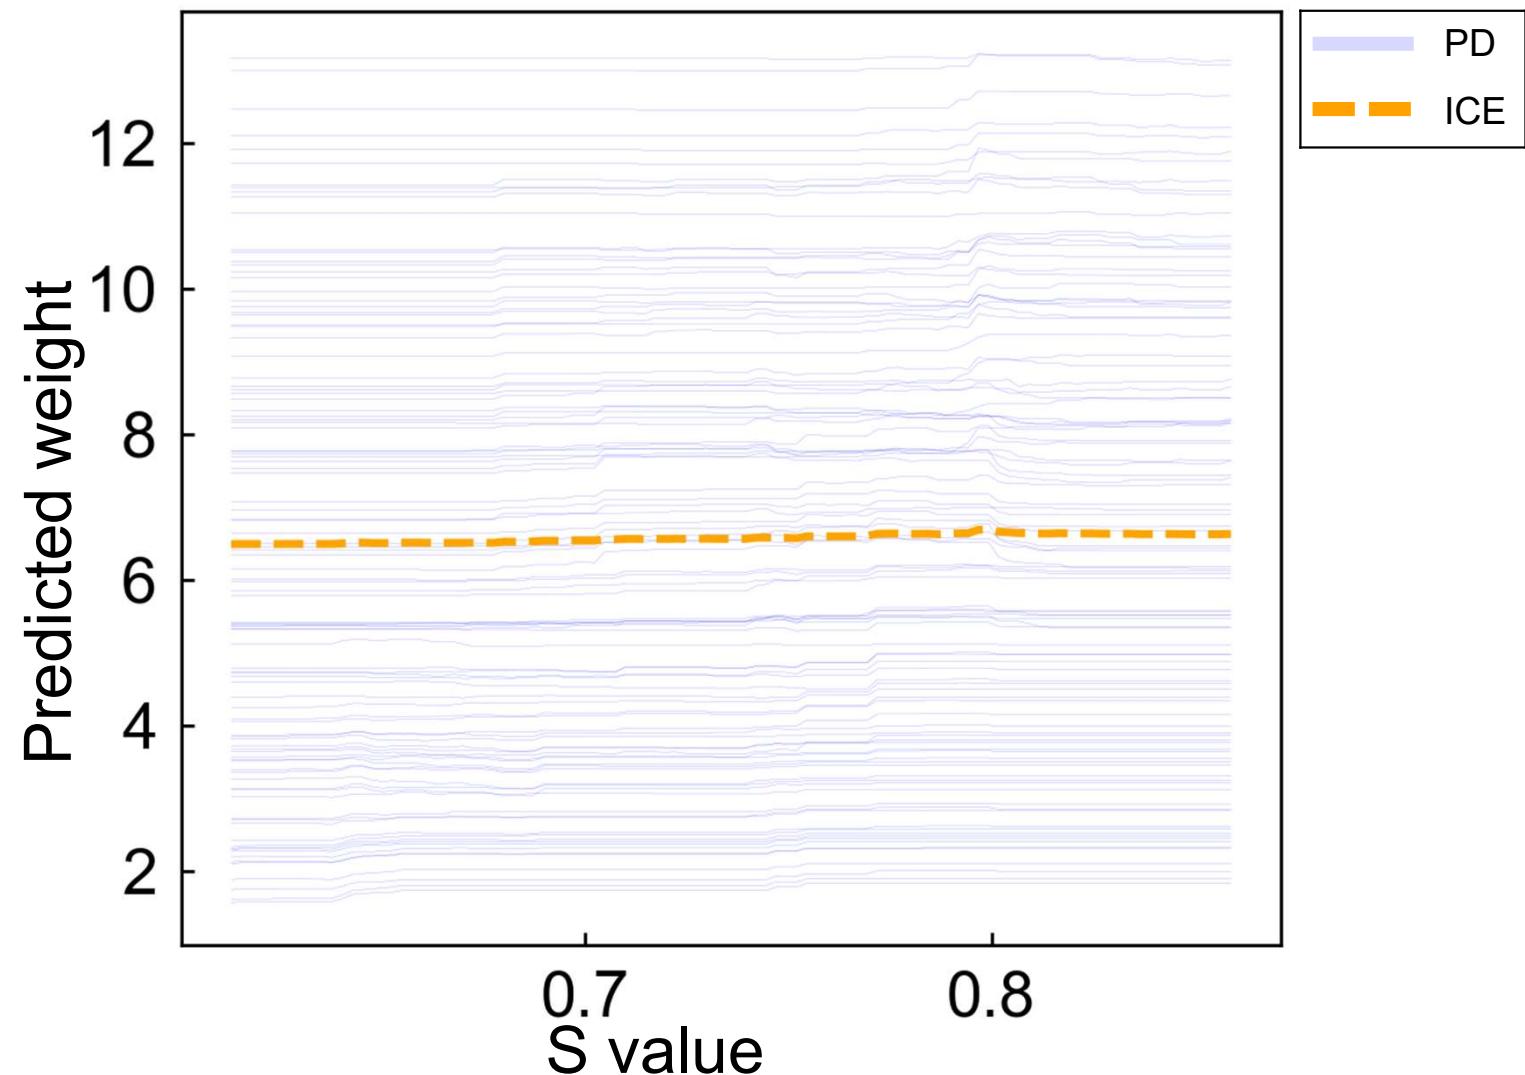

Fig. A10 Partial Dependence and Individual Conditional Expectation of HSV_S_mean value in the best model

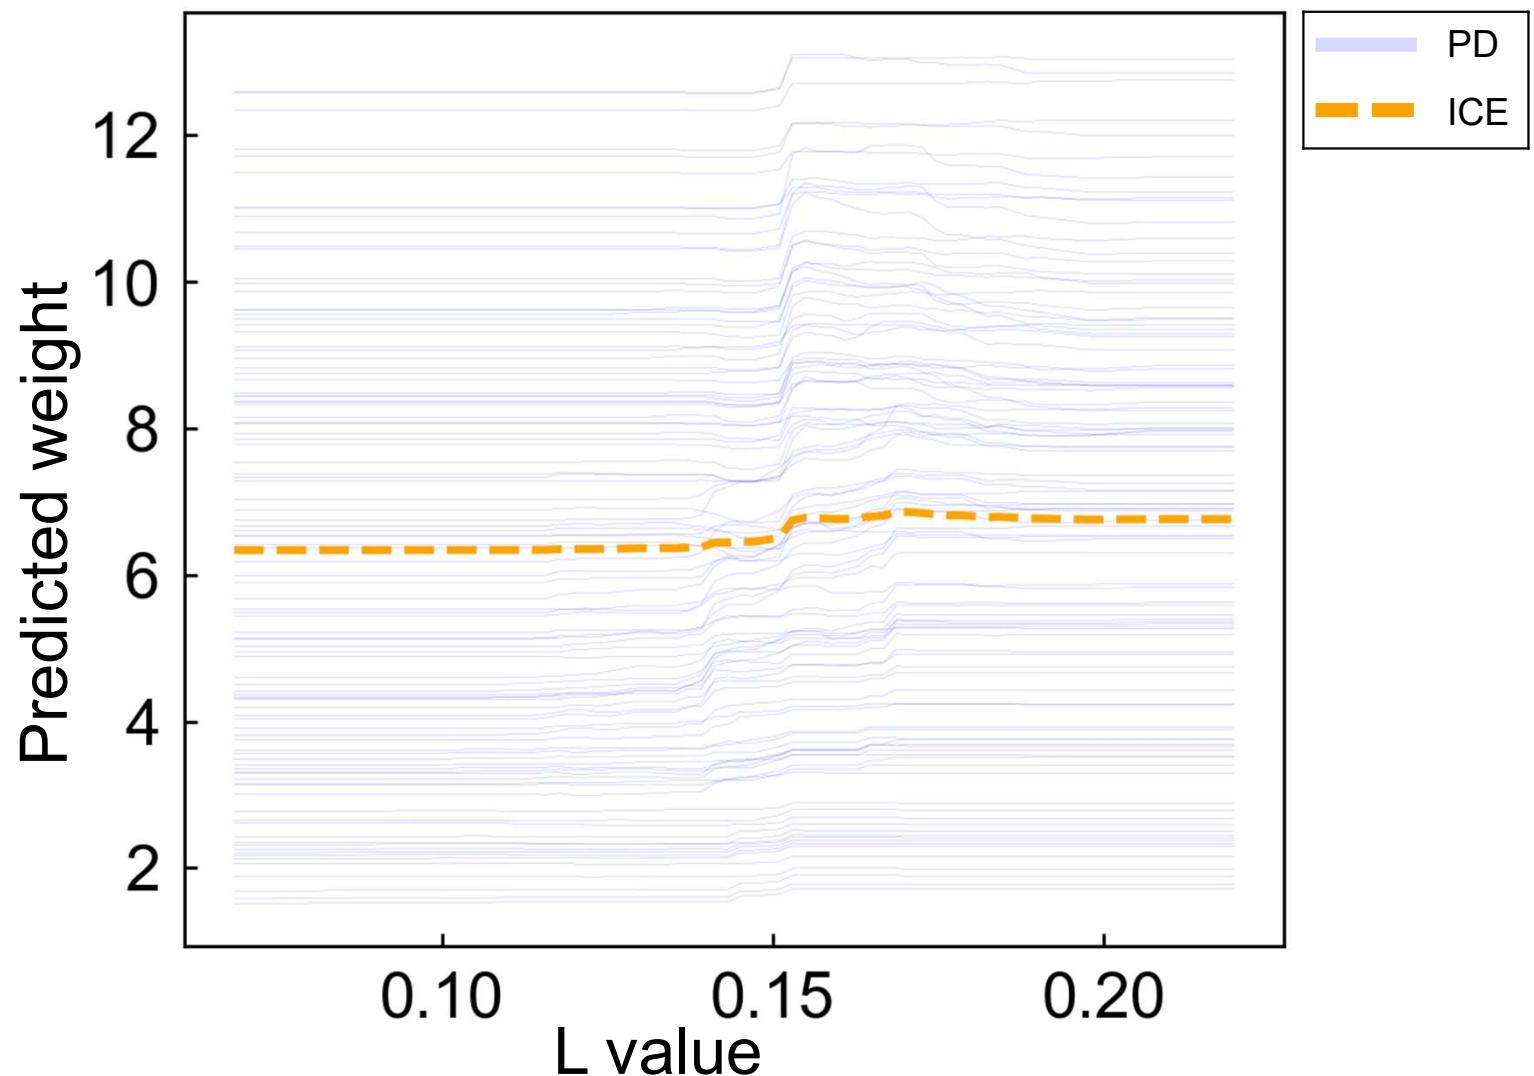

Fig. A11 Partial Dependence and Individual Conditional Expectation of HSL_L_median value in the best model

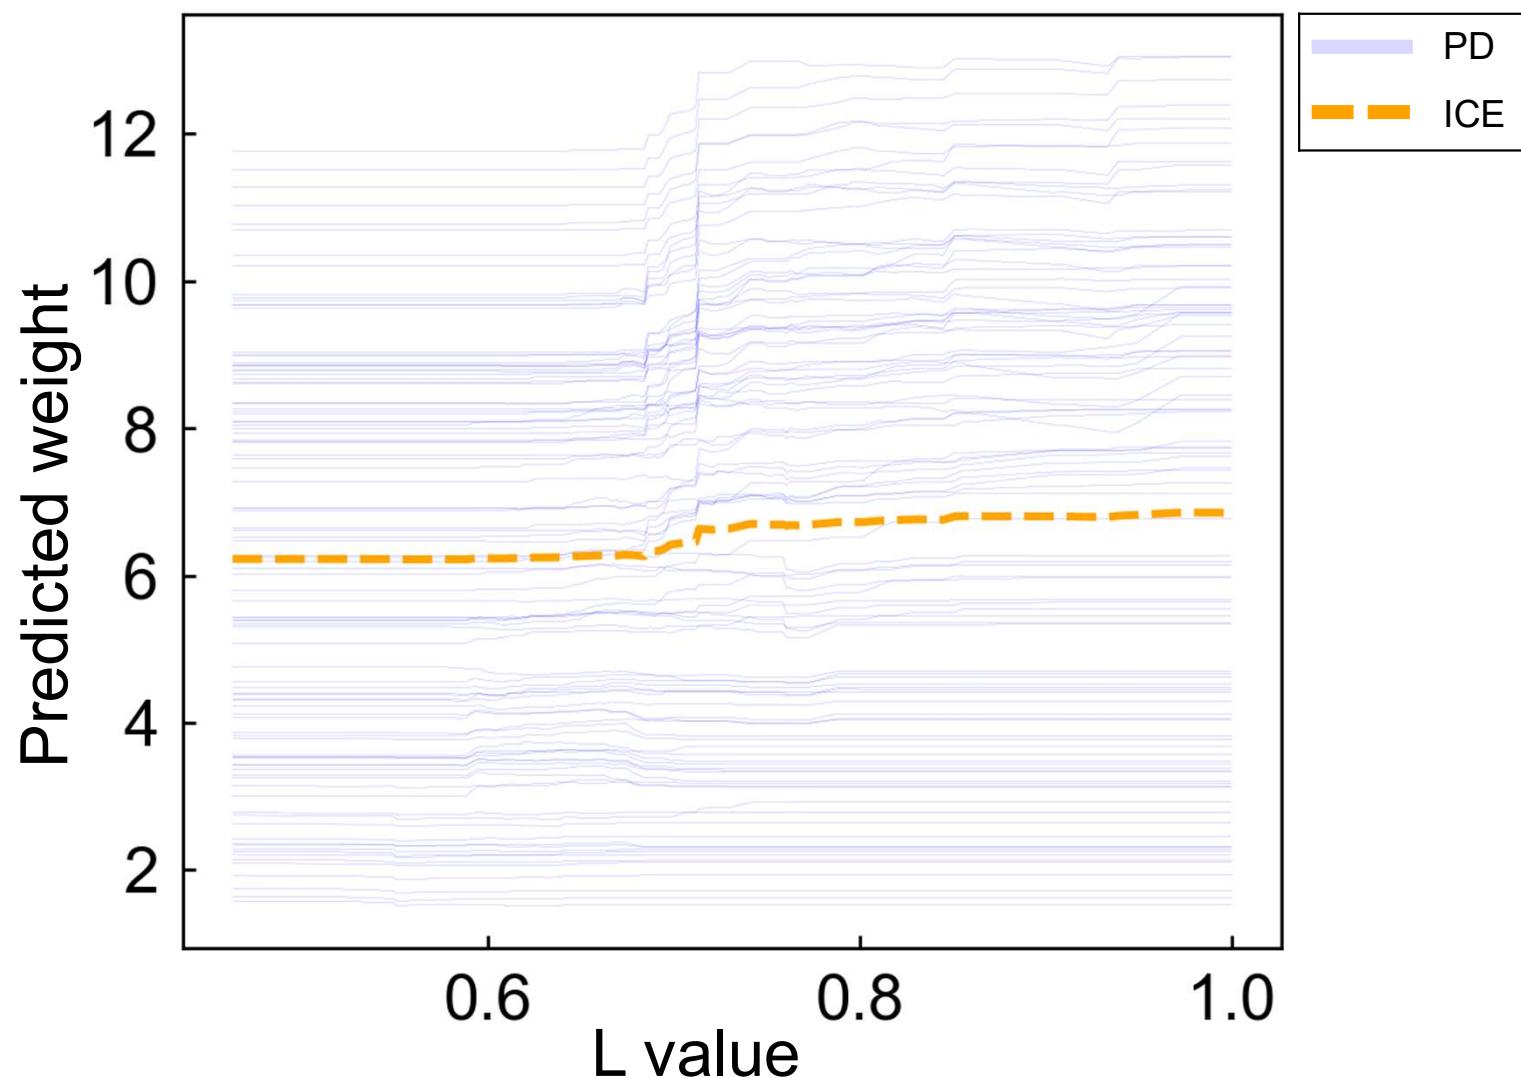

Fig. A12 Partial Dependence and Individual Conditional
Expectation of HSL_L_max value in the best model

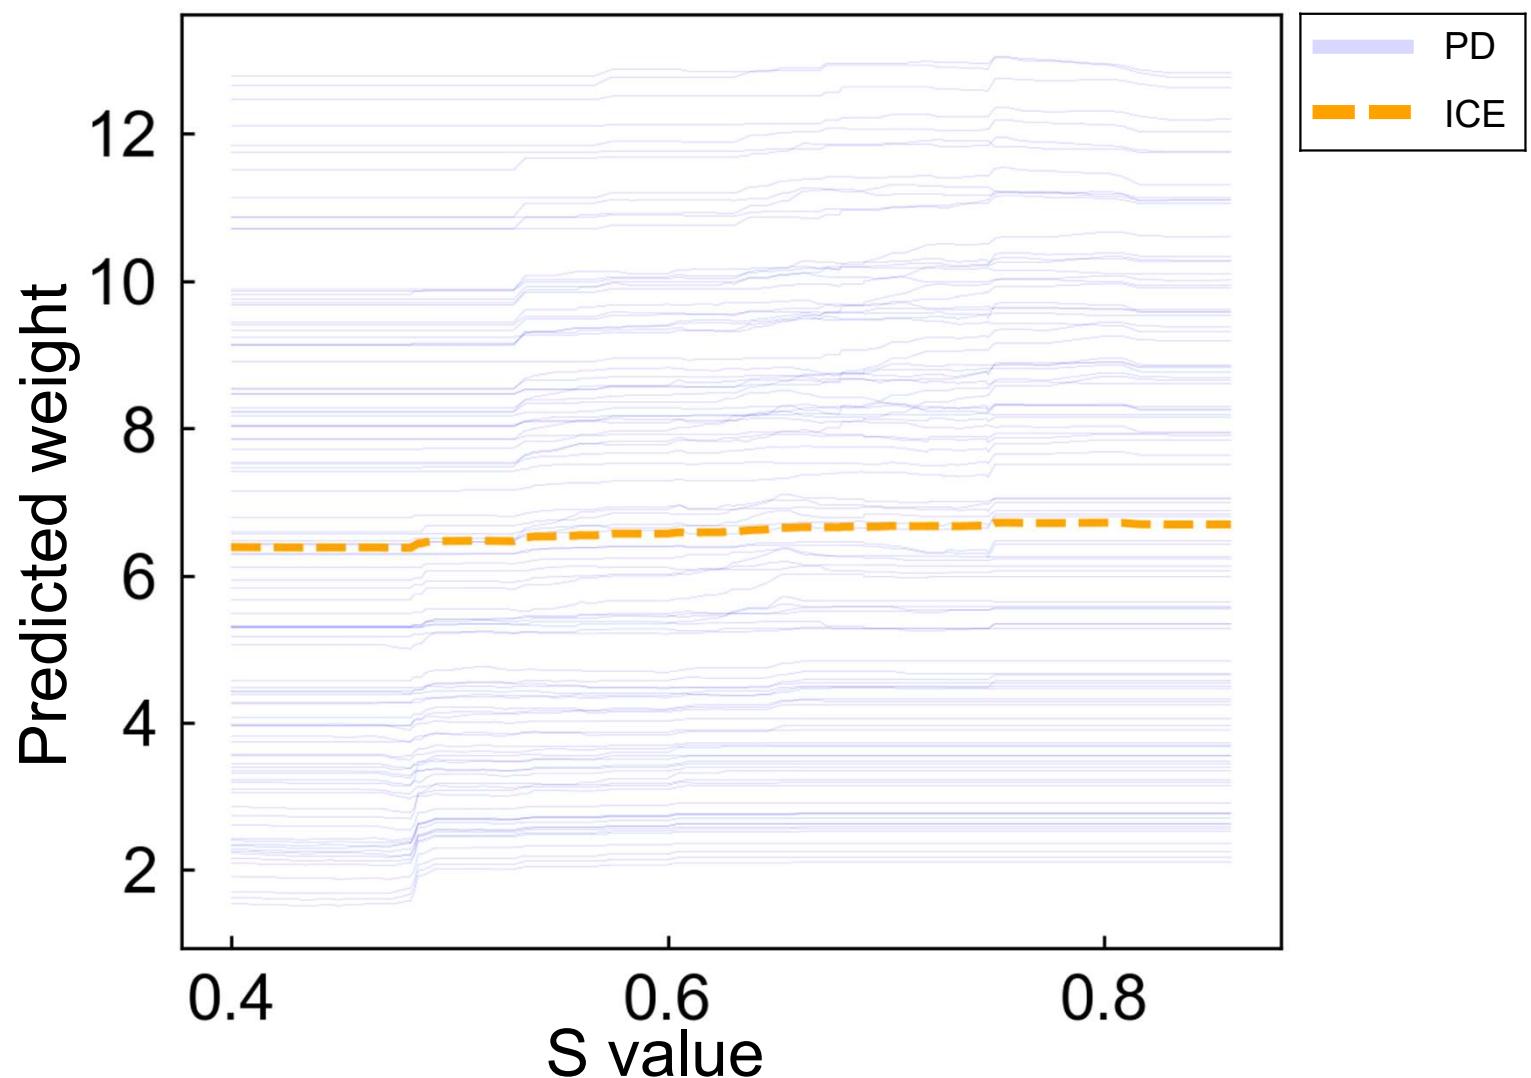

Fig. A13 Partial Dependence and Individual Conditional Expectation of HSL_S_median value in the best model

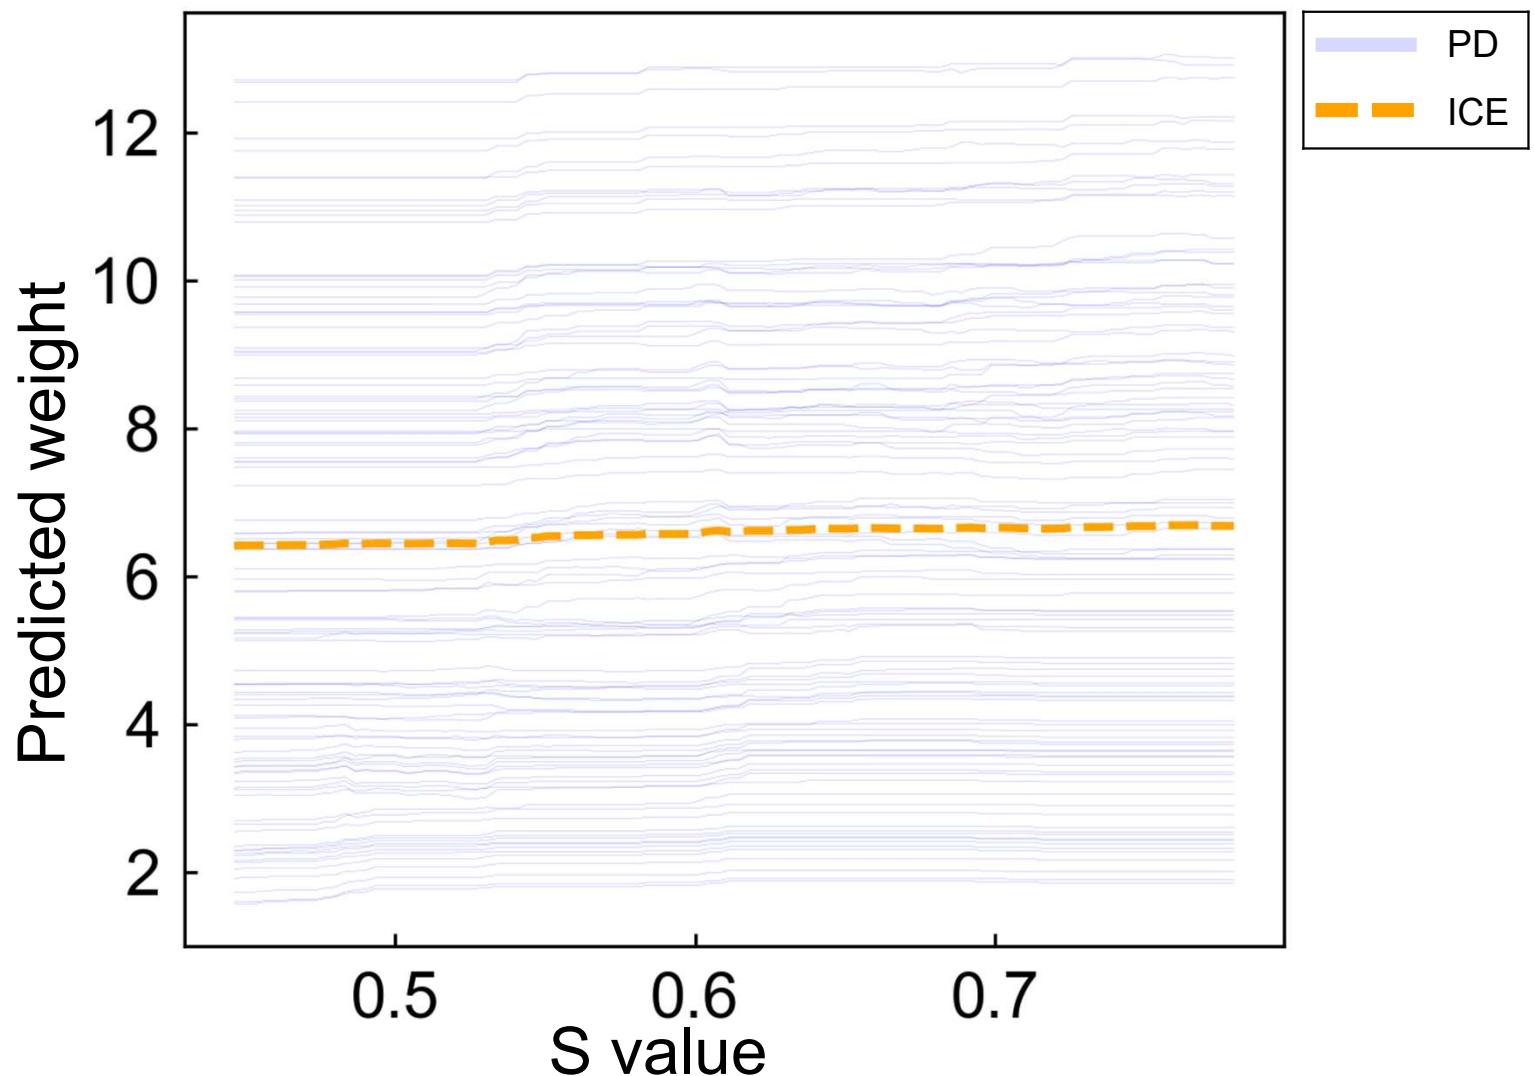

Fig. A14 Partial Dependence and Individual Conditional Expectation of HSL_S_mean value in the best model

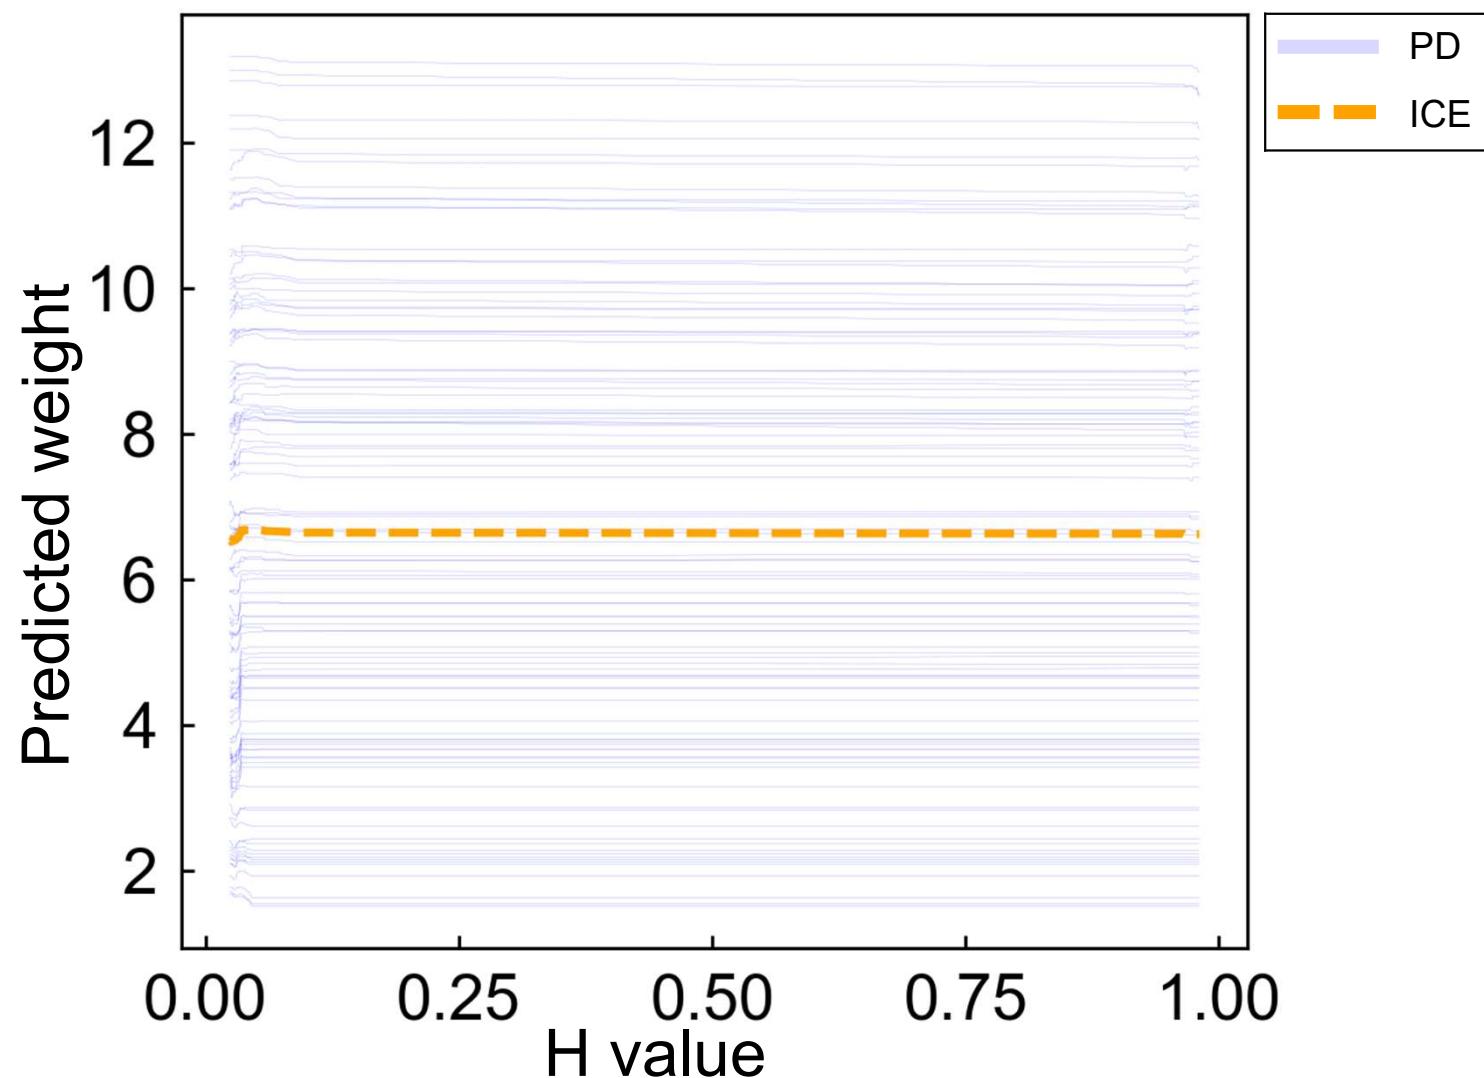

Fig. A15 Partial Dependence and Individual Conditional Expectation of HSL_H_median value in the best model
